LITTLE MARY LEARNS · HOW-TO GUIDE

Play Little Mary on your Yoto or Toniebox

About five minutes. You need this download and a blank Yoto card or Creative Tonie.

1. Open your download

Your zip folder has the four story tracks, a printable card label and this guide.

Computer: double-click the zip. **iPhone or iPad:** save it to the Files app, then tap the zip. **Android:** open it in Files and tap Extract.

2a. Make a Yoto card

1. In the Yoto app, go to **Make Your Own**, tap **New Playlist**, then **Make New**. (Or use my.yotoplay.com on a computer.)
2. Name it, like Little Mary Volume 1, and upload the four tracks **in number order**.
3. Add the volume cover as the playlist picture and tap **Save**.
4. Open the playlist, tap the **three-dot menu**, then **Link to a Card**.
5. Put a blank Make Your Own card in your player, or hold it to the top of your phone, and confirm. A green tick means it worked.

Each Make Your Own card holds up to 100 tracks, so a whole volume fits easily.

2b. Fill a Creative Tonie

1. Open the **mytonies app**, tap **Collection**, then **Creative Tonies**. (Or log in at my.tonies.com.)
2. Tap the Creative Tonie you want to use.
3. Upload the four story tracks. You can pick several files at once.
4. Set your Creative Tonie on the Tonebox. It downloads the new stories, and the light turns green when ready.

A Creative Tonie holds up to 90 minutes of audio.

3. Add the card label (Yoto)

Print the label file from your zip on sticker paper. Choose **Actual size** or **100%** in your print settings so it fits the card (54 × 85.6 mm, about 2.1 × 3.4 inches). Cut it out, peel and stick it on your Make Your Own card.

Need a hand? Use the Contact page on our website and we'll help you get Little Mary playing.
